Location

Hampshire/ Surrey Borders - Frimley

The Role

Reporting to the Medical Affairs Manager the Medical Affairs Advisor will be required to work with the global teams and provide for quality input into the clinical development plans for the pipeline molecules within their therapeutic area. The medical advisor will be responsible for selection and delivery of international trials placed in the UK with support from the Medical Affairs Manager and Clinical Research Department. Where appropriate the Medical Advisor will act as a Chief Investigator for these global trials.

The Medical Affairs Advisor will also lead the design, approval and delivery of all local trial activities (interventional, observational, outcomes research and third party initiated studies).

The Medical Affairs Advisor will act as a reference point for therapy area knowledge and competitor knowledge and will be responsible for code compliance for all promotional materials under the guidance of the Medical Affairs Manager. The successful candidate will be a strategic partner for the commercial team in setting the overall strategy and ensuring the operational delivery for those elements lead by the broader medical team. The medical advisor will be supported by the field based MSL team with regards to KOL interactions., lead Brand Advisory board meetings and support medical education activities.

Candidate

The ideal candidate must be a GMC registered physician, preferably with higher medical qualification or scientific degrees. Experience in the Pharmaceutical industry is preferred. Copy approval and/or clinical research experience will be seen as an advantage. Excellent communication skills and interpersonal skills are a pre-requisite as well as the ability to work effectively as part of a cross functional team.

Salary will be determined by the successful candidates background and experience.
